

Supplemental Data Form Instructions

This form is used to supplement the information provided on the Free Application for Federal Student Aid (FAFSA). To be considered for financial aid at Dordt, you are encouraged to:

- **Complete the FAFSA.** Complete the online FAFSA at fafsa.ed.gov/. (Be sure to list Dordt University as one of your college choices.)
- **Complete the Supplemental Data Form (SDF).** Complete the SDF online at dordt.edu/admissions-aid/financial-aid or print the SDF and fax, email or mail it to the address at the bottom of the page.
- **Pay the \$200 enrollment deposit to Admissions if you are an incoming freshman or transfer and have not already done so.** Continuing students should be pre-registered.
- **Complete an Application for Employment** only if you want to apply for an on-campus job. Complete the online application at dordt.edu/student-employment-application. You must submit an application **each** year if you want to work. This should be completed and returned by June 1, 2021 in order to be included in the first round of placement.

A financial aid offer will be prepared after all necessary information has been received.

***Note:** Returning students may use the *Returning User* option when completing the online FAFSA rather than having to start over. This will allow you to apply for financial aid without starting over each year. You will only need to update the information that changes each year. Please realize you should still complete the Supplemental Data Form.

Apply Online

Nearly all families choose to apply online at fafsa.ed.gov/ instead of using the paper form. For dependent students it is very important that **both** a student and one parent sign the FAFSA electronically.

Apply on Time

This form should be completed at the same time you complete the FAFSA. You will find both forms easier to complete if you complete them together. Iowa students **must** have their FAFSAs completed by the Iowa Tuition Grant deadline of June 30, 2021.

The 2021-22 FAFSA will require **2019** income tax information. Students and families are encouraged to use the Data Retrieval Tool (DRT). The FAFSA will allow you to link directly to the IRS site to transfer over the necessary tax information. The transferred tax information will read "*Transferred from the IRS*" in the online FAFSA and your Student Aid Report; however, the college(s) you have selected to receive the data will be able to view the information. Use of the DRT will greatly simplify the process of filling out the FAFSA and reduce your chance of being selected for verification which can slow down the financial aid process.

Watch your Email or Mail

You will receive an email (if an email address is listed anywhere on your FAFSA) on how to access your Student Aid Report (SAR) online from the agency that processes your FAFSA. If an email is not listed, you will receive a hard copy of the Student Aid Report by regular mail. Freshmen will receive financial aid offers on a rolling basis beginning in January, after all necessary forms have been received by our office. Returning students will receive their financial aid offers beginning in mid-June. Should we find it necessary to process a correction or change (for example, if we reduce income because of tuition paid at a Christian school for younger brothers or sisters) you may receive a second SAR detailing the changes we have made.

Section C: Request for Consideration of Special Circumstances

When the FAFSA is processed, formulas will be applied which assess how much the parents can contribute and how much the student can contribute. This **expected family contribution** will be based on parents’ and student’s income and assets with standard allowances made for other necessary expenses.

Sometimes families have special circumstances which substantially impact their ability to contribute towards educational expenses. Two of the most common special circumstances at Dordt University are tuition expenses to be paid for other family members at private elementary or high schools, and excessive medical/dental expenses. Occasionally other factors may affect the family’s contribution, such as: a significant reduction in parental income for the upcoming year, other non-discretionary expenses not mentioned on the form, a higher cost of living than the national average, a significant debt not reported on the form, or a natural disaster. (Special circumstances refer to something unique to your family.)

If you would like to request consideration for special circumstances, please complete the appropriate items below. It is strongly recommended that you complete at least item 31 if the family pays tuition for younger children at a Christian school.

31. **Tuition for other children.** Indicate the total tuition paid in 2020-2021 for children in kindergarten through grade 12. \$ _____

32. **Medical/dental expenses not covered by insurance.** An allowance will be considered for medical/dental expenses paid in 2020 if, including insurance premiums, they exceed 7.5% of income. \$ _____
(Form 1040, Schedule A, line 1)

33. Other special circumstances– Please itemize giving specific dollar amounts and explain in paragraph form any unusual situations. Attach additional typed information if necessary.

34. All individuals providing information must sign below certifying that the information is correct and complete.
