

# Dordt College Retention Report

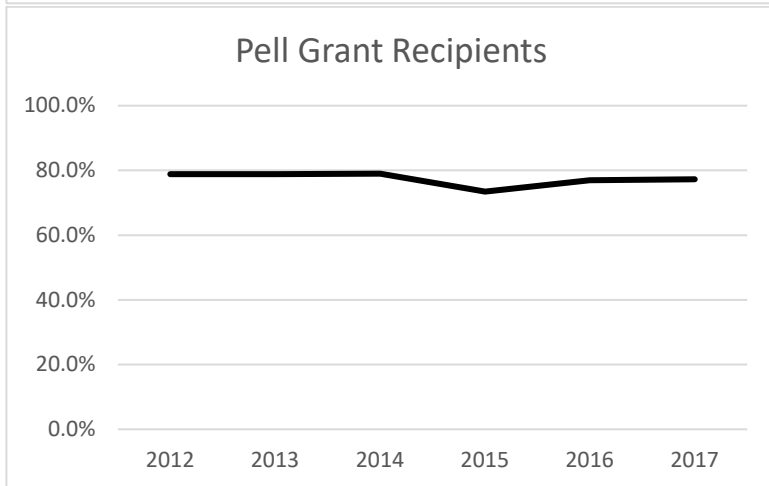

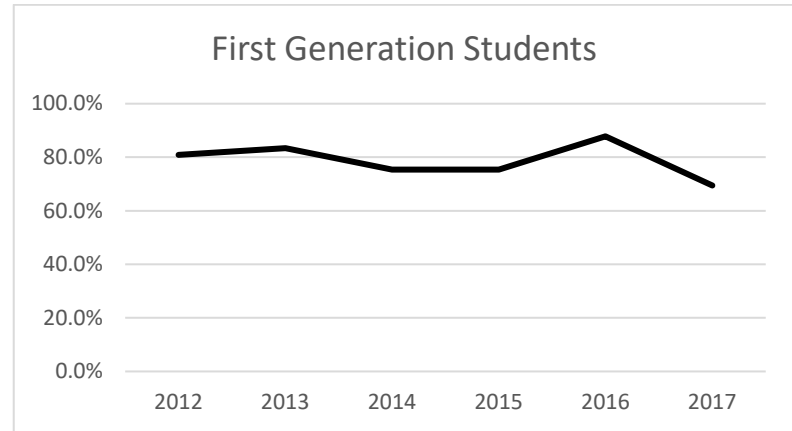

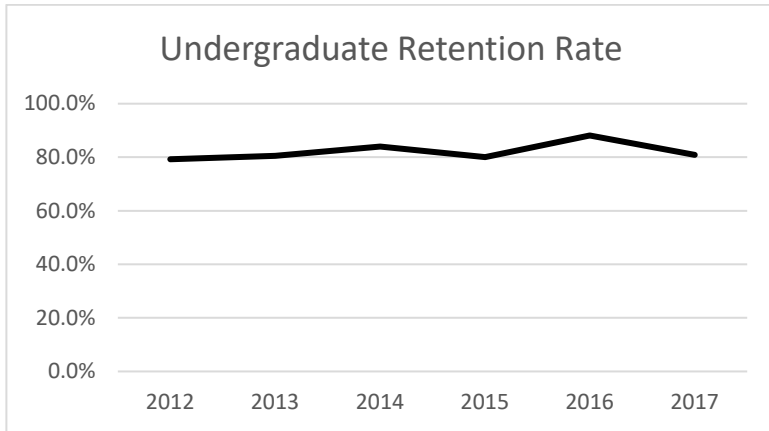

Dordt College  
Office of Institutional Research  
Sioux Center, Iowa  
October 2017

D O R D T C O L L E G E

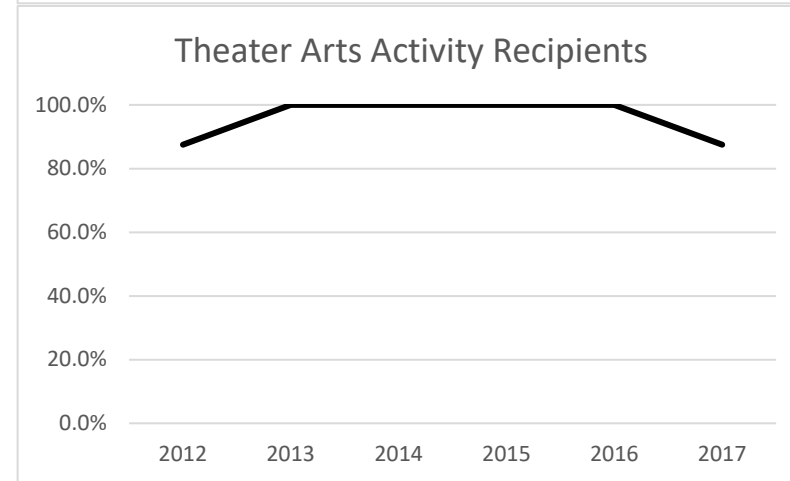

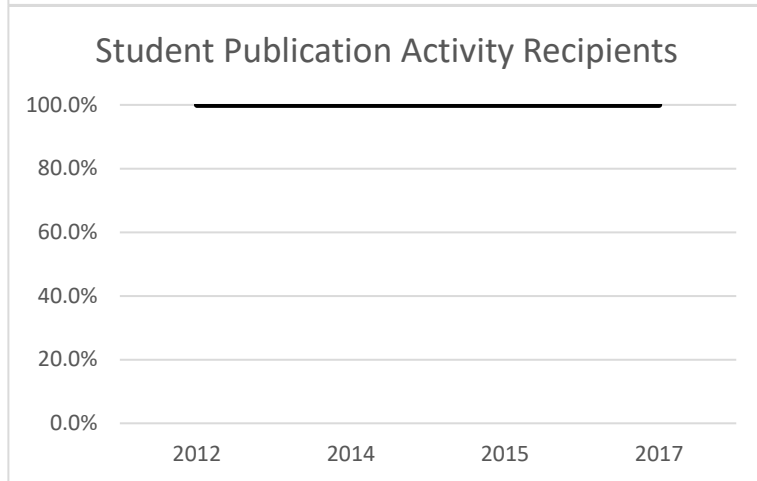

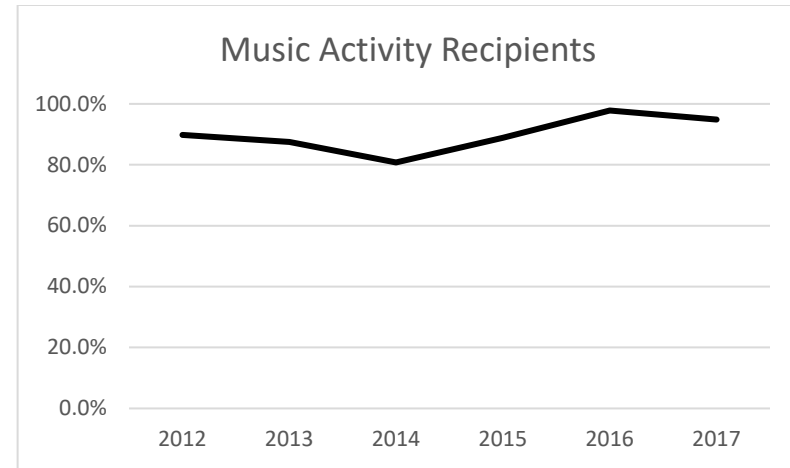

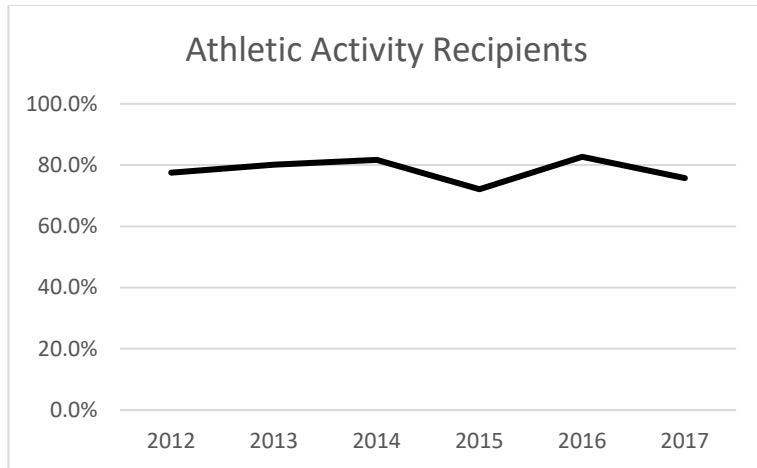

## Undergraduate Retention Summary

Undergraduate retention is based on FR-to-SO rate. These percentages reflect the number of first time, full time, degree seeking freshmen from the prior year who returned in the fall of the reporting year. For example, the 2017 rate of 80.9% is based on the fact that of the 388 first time, full time freshmen in 2016, 314 returned in the fall of 2017. Retention rates for First Generation Students and Pell Grant recipients are also provided.

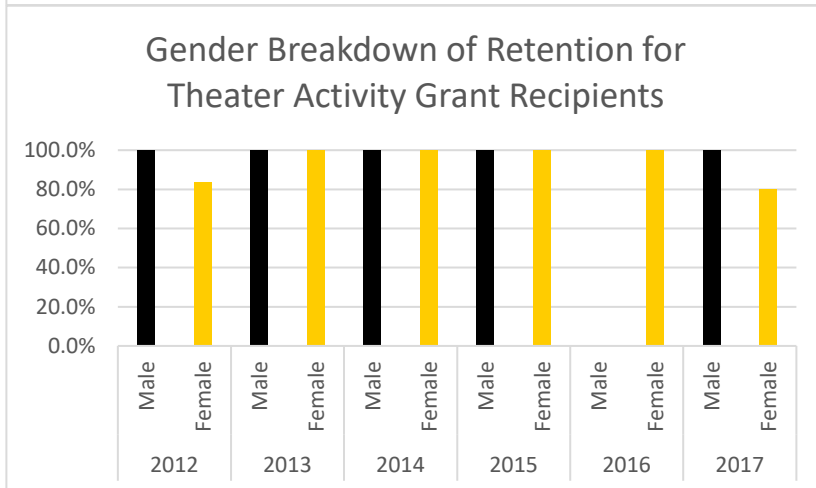

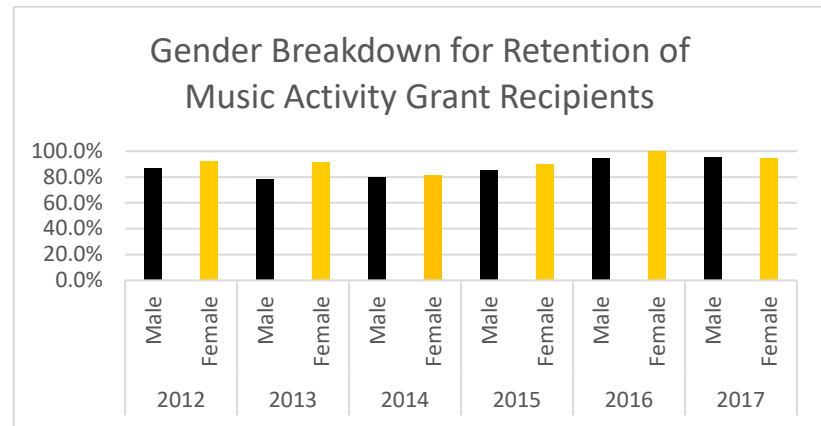

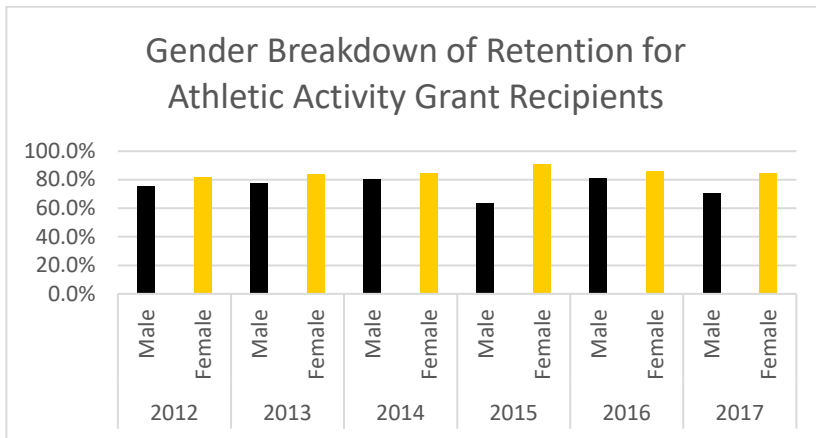

## Undergraduate Retention of Co-Curricular Activity Grant Recipients

Undergraduate retention of activity grants is based on FR-to-SO retention rate of students. These percentages reflect the number of first time, full time, degree seeking, freshman who received an activity grant. Dordt awards activity grants for athletics, music, student publications, and theater arts.

## Undergraduate Retention by Gender

Undergraduate retention is based on FR-to-SO rate. These percentages reflect the number of first time, full time, degree seeking freshmen from the prior year who returned in the fall of the reporting year. The charts below show the breakdown of retention based on gender for activity grants, first generation students and Pell grant recipients. The gender distribution for student publication activity grants was too small for accurate display in a gender breakdown chart.

## Undergraduate Retention by Gender

Undergraduate retention is based on FR-to-SO rate. These percentages reflect the number of first time, full time, degree seeking freshmen from the prior year who returned in the fall of the reporting year. The charts below show the breakdown of retention based on gender for activity grants, first generation students and Pell grant recipients. The gender distribution for student publication activity grants was too small for accurate display in a gender breakdown chart.
